

BUNNY RABBIT

You will need:

- 13 yellow sticks
- 2 purple sticks
- 2 white sticks
- 1 black stick
- 1 neon red stick
- 4"x4" aluminum foil

Scissors 

1

Feet:

Twist 1 yellow stick into a figure 8. Fold both ends down. Fill each foot with 1 zig-zagged yellow stick, ending at the centerpoint, as shown.

2

Body:

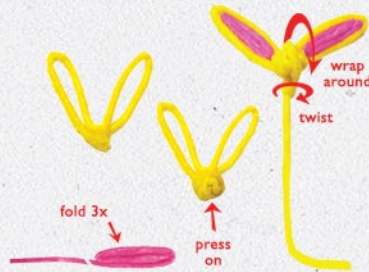

Crumple a 4"x4" piece of foil into an egg shape. Place it on top of the feet. Extend the sticks up the back and stick them to the body.

3

Head:

Fold 1 yellow stick into 2 narrow loops, pointing up. Roll 1 yellow stick into a ball. Press it between the ears. Fold 1 purple stick into an oval to fit inside the ear. Press it into the ear and trim the extra with scissors. Repeat with the other ear. Wrap 1 yellow stick vertically around the center of the head, with the remainder hanging down.

4

Step 4:

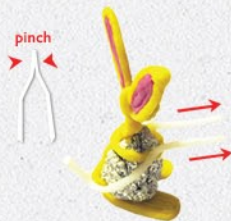

Connect the head to the body by wrapping the long end around the rabbit's neck and chest as shown. Starting at the nose, wrap the face in 1 yellow stick.

5

Step 5:

Fold 1 white stick in half. Pinch together about 1 cm. at the point, then wrap it around the body as shown. Press both sides firmly against the yellow sticks.

6

Step 6:

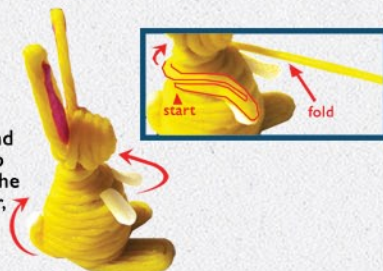

Continue wrapping the head and body of the bunny in 5 more yellow sticks. Cover the supporting sticks, but leave the two white arms and tail exposed.

7

Step 7:

Fold the white arms in half. Point the tail up. Fold over the end of 1 yellow stick as shown. Press the folded end on top of the right paw. Wrap the rest around the body, to the other paw. Fold that end over, press onto the paw and trim with scissors.

8

Step 8:

Cut 2 small pieces of white stick. Roll them into eyeballs and press them on. Cut 2 smaller pieces of black stick. Roll them into dots and press them onto the white balls. Cut 1 small piece of neon red stick and press it on for the nose.
